

Mad Science Summer Camps

Palm Harbor Community Center

Registration at the Palm Harbor Community Center

1500 16th Street, Palm Harbor, FL

Mad Science is proud to offer 6 new and exciting weeks of camp programs this coming summer. All camps are 1/2 day (3 hours) of hands-on, inquiry based fun and have completely different content. (Ages 6 -12)

June 9 – 13, 9 – 12pm - Reactions in Action

In this fun filled week we will discover the science of energy, color and light while creating indoor fireworks, and working with lasers. Experience the amazing process of cotton candy and explore the science of taste and our other senses while creating mini explosions. Seeing is believing as we uncover the science of sound special effects and optical illusions. Lots of hands-on fun and great take homes for each day. Price = \$130

June 23 – 27, 9 – 12pm - Engineering Mania

Junior scientists are needed for this hands-on week where we will build and test bridges, buildings and other structures. Fundamental forces and air pressure will be explored, and pilots are needed to fly our special hovercraft to test the forces of motion. Make indoor lighting, and have a real “hair raising” experience as we work with electricity. The fun never ends as we explore the science of magic and toys. Takes homes every day. Price = \$130

June 30 - July 3 (4 days) 9 – 12pm - Pure Science Fun!

We will be focusing on FUN and EXCITEMENT this week as we utilize the best from our exciting collection of parties and special events to engage and remind children just how much fun science actually is. Plenty of cool demonstrations, and exciting hands-on activities will involve amazing chemical reactions, special effects, and fantastic forces. Cool take homes as well. Price = \$105

July 7 – 11, 9 – 12pm - Natural Wonders

In this exciting week we focus on our planet and ourselves. Make erupting volcanoes to explore new earth formation, pan for gold, and experience hurricane force winds as we explore weather forecasting it. Explore the world of animals, habitats and build mini ecosystems. Experience the science of waves and water and go green by cleaning an oil spill and recycling. We will explore how our body works, discover the science of nutrition, and look at and build cells as well as other cool take homes. Price = \$130.

August 4 – 8, 9 -12pm - Crazy Chemworks

Delve into the world of atoms, molecules, and chemical reactions. From the super tiny to the super slimy, this fun, hands-on and interactive program for children sends them on a fascinating journey of exploration and discovery into the world of chemistry! In addition to creating a lot of reactions, we will investigate the science of sticky and how & why things glow. Children will get introduced to how a real science laboratory works and gets lots of cool take-homes to start their own Mad Scientist lab at home. Price = \$130

Aug 11 – 15, 9 – 12pm - NASA – Journey Into Space, Junior Astronaut Training

We will be going to Mars in 25 years according to NASA. That puts our students at the right age to lead these exciting journeys, so let's get a head start on Training! This hands-on program designed with NASA explores all atmosphere, solar system and space phenomena as well the forces of flight, living in space and the challenges of space travel. Experience a real rocket launch, and build lots of cool take homes. Price = \$130.

Total Price for all 6 weeks = \$755. Sign up for all 6 weeks for \$700. A Snack & drink are included each day as well as all supplies, and take-homes. Min enrollment = 10, max = 25. We are world's leading fun science provider and all of our programs aim to spark the imagination and curiosity of children by providing them with hands on, and entertaining activities that instill a clear understanding of what science is really about and how it affects the world around them. Our curriculum correlates with both National and Florida Sunshine State Standards for science. **Our mission is to instill a love of learning in children that will last a lifetime.**

We have FUN down to a Science!
